What can the practice improve (ideas, suggestions, comments) ?

Some cool jazz music in reception would be nice!

It is very difficult to get an appointment with the hygienist after 6.30pm during the week or on Saturdays. When I called around a week ago the first available appointment outside office working hours was in late January next year. Having to book 5 months in advance to see the hygienist at a time outside office working hours is quite disappointing. It would be great if you could provide more hygienist evening appointments during the week and at least 1 Saturday per month where she is available also past 2pm.
